

Fur Bleach Concentrate

A non-chlorinated bleaching agent for hair-on and fur skins. Helps remove stains. Works in a lower pH than other bleaches. Safe to hair and fur and does not yellow. Works in room temperature water. Also helps remove bad odors.

Wear mask, goggles, and disposable rubber gloves to prevent inhalation of chemical dust, and any eye or skin irritation.

Activity: 99%

pH Value: 9.5

Charge: Anionic

Directions: Before pickling, first remove as much blood staining as possible using an enzyme bate such as the Enzymol Bate AP. If an enzyme is not available, soak skin in a salt brine solution. When as much blood as possible has been removed, place skin in a pickle for a minimum of 12 hours.

Mix a separate solution of 3-6 ounces of **Fur Bleach Concentrate** and $\frac{3}{4}$ lb. of salt to each gallon of water. **Note:** It's best to dissolve the Fur Bleach Concentrate in a small amount of hot water prior to adding to full solution. Solution should be at room temperature or slightly above. Be sure to mix enough solution for the hides and skins to move freely.

Once solution is mixed, immediately place the hide or skin in the solution and the adjust pH, if necessary, to between 7.0 - 9.0. Leave in solution for 2 - 6 hrs. Solution is no longer active after 6 hrs. Once the hides or skins have been bleached, remove, rinse, and place back in pickle for a minimum of 12 hours. The pH may need to be adjusted.

Note: NEVER let the water temperature exceed 90°F/32°C. Always test a small area on the hide before proceeding.

Precautionary Statements: Do not get in eyes, on skin or on clothing.

Hazard statements: Causes eye irritation and may irritate skin causing dryness. *If in Eyes:* Rinse with water for several minutes. Remove contact lenses if present and easy to do. *If on Skin and Clothing:* Wash skin immediately with soap and water. Remove and wash contaminated clothing. If skin or eye irritation persists, get medical attention. Store product closed in original container in a cool, dry area. Keep out of the reach of children.

Disclaimer: Being that hides and skins are natural materials, susceptible to varying degrees of putrification, natural defects, disease, mishandling, experience of the user, and used under conditions beyond our control, as seller, we make no guarantee or warranty expressed or implied as to the use of this product. All information contained here is accurate to the best of our knowledge and good faith and is based upon thorough testing.
