

Fur Oil T-3

This oil is a blend of natural and synthetic oils and polymers. **FUR OIL T-3** produces a very supple, soft, stretchy leather, specifically developed for fur skins. It permanently fixes to the leather preventing wash out and oil migration, yet allows the skin to easily rehydrate, making it an excellent oil for Taxidermy Tanning.

FUR OIL T-3 leaves a pleasant, non-oily feel to the leather, with a light beige/golden color. It's recommended for fur skins (small mammals) such as mountain lion, goat, sheep, and other like skins.

Bring product to room temperature and mix well. Wear splash proof goggles, and disposable rubber gloves to prevent any eye or skin irritation.

Activity: 90-93%

Weight: Approx. 7.8 lbs per gallon

pH Value: Approx. 7

Charge: Anionic
