

Swab Oil SP-2

A medium weight swabbing oil.

Bring product to room temperature and mix well. Wear splash proof goggles, and disposable rubber gloves to prevent any eye or skin irritation.

Activity: 80-83%

Weight: Approx. 8.2 lbs per gallon

pH Value: Approx. 7

Charge: Anionic

An economical blend of natural and synthetic oils and polymers, with an added antioxidant. **Swab Oil SP-2** produces a very supple, soft, stretchy leather. It permanently fixes to the leather, preventing wash out and oil migration, yet allowing the skin to easily rehydrate, making it an excellent oil for taxidermy tanning.

Skins oiled with **Swab Oil SP-2** have less shrinkage than most conventional oils. Antioxidants are added to prevent oxidation and provide excellent shelf life. It also leaves a pleasant, non-oily feel to the leather with a light golden color. This oil is recommended for deer, medium bears, pig, and medium African skins. Has no foul odors.

Precautionary Statements: Do not get in eyes, on skin or on clothing.

Hazard statements: Causes eye irritation and may irritate skin causing dryness. *If in Eyes:* Rinse with water for several minutes. Remove contact lenses if present and easy to do. *If on*

Skin and Clothing: Wash skin immediately with soap and water. Remove and wash contaminated clothing. If skin or eye irritation persists, get medical attention. Store product closed in original container in a cool, dry area. Keep out of the reach of children.

Disclaimer: Being that skins are natural materials, susceptible to varying degrees of putrefaction, natural defects, disease, mishandling, experience of the user, and used under conditions beyond our control, as seller, we make no guarantee or warranty expressed or implied as to the use of this product. All information contained here is accurate to the best of our knowledge and good faith and is based upon thorough testing.
